Digital music resources

Audio recording

E-newsletters

Come along for the weekend to learn how to

- Reach out to others through implementing your own outreach plan, based on public relations methods created for one of our local communities;
- Create an electronic newsletter using the free Mail Chimp service;
- Create digital music resources; and
- Make audio recordings, for example of sermons and interviews with local Unitarians.

And please share your knowledge with those present.

We'll take some time out together to develop ideas for our own local Unitarian communities.

**UNI-COMS
2017**

**3RD - 5TH NOVEMBER
2017**

**@ THE
NIGHTINGALE
CENTRE**
